

Psychiatry

for adults with learning disabilities

NHS

 Camden

What is a psychiatrist?

A psychiatrist is a doctor who can help you with your mental and emotional health

A psychiatrist can help you if you are experiencing mental illness, like

- depression

feeling sad or down a lot of the time

- anxiety

feeling worried or stressed a lot of the time

- psychosis

hearing, seeing or believing things that are not real

- dementia

having trouble remembering things

A psychiatrist can help you by...

- talking with you

- giving you medication

- working with others to help you

We can see you at...

- your home

- your work

- your day service

We can see you at...

- college

- 5 Pancras Square

Confidentiality and your personal information

CLDS looks after your personal information very carefully

We follow the Government's rules about storing and sharing personal information

We only share your information with other people when

- the rules say we can
- or
- you have said we can
- or
- you or other people may be at risk of harm if we do not

You can find out more about how we use your personal information on the [CLDS website](https://www.camden.gov.uk/about-clds)
