

CODE THE CITY: AI in Urban Transport Project

Unleash your inner innovator! Join our free workshop with limited spots to tackle real-world urban challenges with Google Code Next, an immersive computer science education program. Open to all, this project is great for students interested in Urban Planning, Geography, Computer Science, Maths, IT, and more. Collaborate with peers from New York City, explore **AI Applications** in urban transport, and discuss ethical considerations. Gain future-ready skills in technology, design, and global citizenship.

What you'll gain:

- Hands-on experience, solving real-world challenges
- **3D Modeling with TinkerCad** & solution visualisation
- Deepen your understanding of **AI and urban transport systems**
- Build your portfolio with a professional project proposal & presentation
- Develop teamwork, leadership, and cross-cultural collaboration skills
- **To find out more and to sign up, click [here](#) or scan the QR code below!**

WHEN?

Thursday's from 4pm to 5pm, with 6 sessions running from 16th October to 27th November.

WHERE?

London AI Campus, Charrington St,
London NW1 1RD
