

# **Niesha Akyeampong - A Manifesto for Positive Change**

## **Introduction**

By electing me, you are choosing a passionate advocate who will tirelessly work to address the needs and concerns of Camden's young people.

## **Youth Safety and Crime Prevention**

I will collaborate with local authorities, police and community organisations to develop strategies for reducing youth crime, promote initiatives that provide alternatives to gang involvement and support rehabilitation and reintegration.

I will also advocate for increased investment in community centres and youth programmes to provide safe spaces for young people.

## **Fighting for Education**

I will advocate for increased funding for schools, improved access to resources, and try my best to give all students free school meals. I will also work to address issues such as student mental health support and access to higher education opportunities.

## **Empowering Youth Leadership**

If elected, I will establish youth councils and leadership programmes to empower young people to take an active role in shaping their community. I will mentor and support young leaders, providing them with the tools and resources they need to make a difference.

## **Tackling Youth Issues**

I will prioritise addressing the pressing issues facing Camden's youth. I will work collaboratively with community organisations, local government and young people themselves to develop innovative solutions and implement policies that improve the lives of our youth.

By electing me, Niesha, as your Camden Youth MP, you are choosing a dedicated advocate who will tirelessly champion the needs and concerns of our community's youth. Together, let's build a brighter future for Camden's young people - one where their voices are heard, their potential is nurtured, and their dreams are within reach. Vote for Niesha for positive change!
