

KNOW BETTER THAN THE

SCREEN

Just because you can search anything up, doesn't mean that the internet always tells the truth.

Online, brands will try to sell you things that don't really exist or won't happen. Just think that if it seems too good to be true, it's not real.

Top Safety Tips:

1. Don't click on any strange links that pop up or websites
2. Don't trust anyone online unless you definitely know it's someone you know.
3. Make sure to report anything strange to a trusted adult!

Good websites are hard to find. Look for a successful newspaper company like the Guardian, or National Geographic for true information.

DID YOU KNOW?
Britain lost approximately 11.4 billion pounds to online scams in the last 12 months, says a professional company called the Global Anti-scam Alliance! So be careful!
