

Appendix 3 Local Green Spaces Justification

Hampstead Neighbourhood Plan

Local Green Space Designation

Local Green Spaces (LGS) may be designated where those spaces are demonstrably special to the local community. The National Planning Policy Framework encourages neighbourhood forums to utilise the LGS designation where appropriate:

Local communities through local and neighbourhood plans should be able to identify for special protection green areas of particular importance to them. By designating land as Local Green Space local communities will be able to rule out new development other than in very special circumstances. Identifying land as Local Green Space should therefore be consistent with the local planning of sustainable development and complement investment in sufficient homes, jobs and other essential services. Local Green Spaces should only be designated when a plan is prepared or reviewed, and be capable of enduring beyond the end of the plan period.

The Local Green Space designation will not be appropriate for most green areas or open space. The designation should only be used:

where the green space is in reasonably close proximity to the community it serves;

where the green area is demonstrably special to a local community and holds a particular local significance, for example because of its beauty, historic significance, recreational value (including as a playing field), tranquility or richness of its wildlife; and

where the green area concerned is local in character and is not an extensive tract of land.

Local policy for managing development within a Local Green Space should be consistent with policy for Green Belts.

This document sets out the reasoning and evidence for the proposed designations contained within the draft Hampstead Local Plan.

All LGSs for designation are consistent with Camden's Local Plan policies for sustainable development. They are:

at the heart of the village, are very local, will endure beyond the plan period, are not extensive and are not within development sites

The designations are consistent with local plan objectives:

A connected Camden community where people lead active, healthy lives' A sustainable Camden that adapts to a growing population" (Source: Camden Core Strategy) And with policies CS7, CS14, CS15, DP22, DP24, DP25

The designations support Local Plan Policies: SP13 (open space and biodiversity) 'protect and enhance and when and where possible extend the existing boundaries of the borough's green belt, designated open land, designated open spaces, green chains, allotments, river corridors and other open spaces from inappropriate development' 'protect and improve sites of biodiversity and nature conservation' 'protection, management and enhancement of existing trees'

Is the space de significance?		Does the land already benefit from protections? e.g. MOL, National Park, AONB, SSSI, or CA	landowners been consulted and if	
Proposed Local (1. Branch Hill House Gardens and Wood, Oak Hill Wood, Branch Hill Allotments and two extensions	 Bracen Spaces, including Sites of Importance for Nature Conservation that current bescription of Space: Branch Hill SINC consists of several individual blocks of woodland, interposed with small areas of open grassland, a wooded bank south of Firecrest Drive as well as the private wooded grounds of Coombe Edge, Oak Hill House and Heysham House. Largely secondary woodland, it includes native and exotic trees, and is important for wildlife. Branch Hill Woodland was originally part of Hampstead Heath, from which it was cut off when Branch Hill House was built in its own grounds in the 1860s. Branch Hill Allotments are now on part of its former garden. The sloping site also has areas of woodland, open grass and wooded grounds of private houses. Below Branch Hill House is an interesting low-rise tiered housing scheme unobtrusively built in the midst of the woods on a site purchased in 1965 by LB Camden. The houses of Branch Hill Estate, now known as Spedan Close, have gardens that also form the roof of the house below, thus blending into the surrounding green space. Woodland with Children's Play Area and gardens of Heysham House Spedan Close Branch Hill Allotments Gardens associated with Spedan Close, Oak Tree House and Coombe Lodge Oak Hill Wood 	Special Policy Area: Area of Special Character: Hampstead & Highgate Ridge. Grade 1 Borough SINC CaB102. Other LA designation: Nos 145, 146, 147, 148 and 269 in Camden's schedule of Open Spaces; Public Open Space (Small	LB Camden This site was included in the 1st consultation draft of the Hampstead Local Plan. The allocation received no comments from Camden	Managed by Parks & Open Spaces with the help of volunteers from <i>Green</i> <i>Gym</i> .

 Branch Hill Allotments	Special Policy Area: Area	From the Branch Hill	Branch Hill
Local Significance: (Historical and Beauty) Adjacent to Frognal Rise and Oak Hill Way are the well-used Branch Hill Allotments that were formed from the gardens of Branch Hill House, probably including a kitchen garden for which part of a wall remains. In the 1980s the neglected gardens were taken on by enterprising gardeners who informally maintained them by growing vegetables here. Their endeavours had the support of local residents and The Heath & Hampstead Society, and resulted in Camden Council earmarking the land for community use as allotments. The Branch Hill Allotments Association is currently taking over management of the area from LB Camden. There are 32 plots here, although a number are divided in two, and some 40 allotment-holders belong to the Association. The	of Special Character: Hampstead & Highgate Ridge. Grade 1 Borough SINC CaB102. Other LA designation: Public Open Space (Small Local); Hampstead Conservation Area. Hampstead Local Plan: Heath Fringes, Green Corridors	Allotment Association: "We discussed your message to Annie Hanson [Chair] of 3 January [2016] at our committee meeting on Monday (11 th). I'm pleased to say that the	Allotment Association are taking over the management of the allotments
	Special Policy Area: Area	LB Camden	Managed by
Spedan Close play area is set in a wooded enclosure and provides a valuable play facility for the local community. It caters for children from 4-12 years old and is open every day of the week. Both Hampstead Town and Frognal and Fitzjohns are below the standard of 0.65 sq.m of formal children's play provision per child so this particular facility is very important to this area. Richness of Wildlife: The woodland here is dominated by sycamore (<i>Acer</i>	Hampstead & Highgate Ridge. Grade 1 Borough SINC CaB102. Other LA designation: Public Open Space (Small Local); Hampstead	This site was included in the 1st consultation draft of the Hampstead Local Plan. The allocation received	Parks & Open

	and bramble (<i>Rubus fruticosus</i>). The area is thus a supportive and bridging habitat for the many mammals, birds, bats, invertebrates and wildflowers that inhabit the whole SINC and the biodiversity corridors leading to and from it. Oak Hill Wood Richness of Wildlife: The largest individual block of woodland is Oak Hill Wood. This is secondary woodland which includes numerous mature trees including hornbeam (Carpinus betulus), sweet chestnut (Castanea sativa), horse-chestnut (Aesculus hippocastanum), sycamore (Acer	Hampstead Local Plan: Heath Fringes, Green Corridors Special Policy Area: Area of Special Character: Hampstead & Highgate Ridge. 		Other LA designation: Public Open Space (Small Local); Hampstead Conservation Area. Hampstead Local Plan: Heath Fringes; Biodiversity Corridors; Veteran trees	Hampstead Local Plan. The allocation received no comments from Camden	
	Additional areas outside the SINC: The woodland garden area to the west of Birchwood Drive joins Hampstead Heath - via Branch Hill SINC - to the proposed Biodiversity Corridor within the Redington Frognal Neighbourhood Forum area, running towards Finchley Road along the valley of the western arm of the Canon stream, south east of Templewood Avenue. The area of trees and garden along the east of Firecrest Drive provides more physical continuity with Hampstead Heath and the Branch Hill SINC, assisting the connections between veteran trees on the Heath, within Branch Hill SINC and along the network of both Hampstead and Redington Frognal NFs' biodiversity corridors. For these two reasons in particular this area requires statutory protection, requested by local people living in Firecrest Drive: "the area needs its trees and ground cover to continue the support for rich bird, small mammal and insect life and to provide cover and protection	LA designations Apart from a tiny section of additional area 2, both are in Hampstead Conservation Area. Hampstead Local Plan: Heath Fringes; Biodiversity Corridors; Veteran trees		These areas are private gardens on the whole.
2. Oak Hill Park Spaces	from disturbance." Local Significance: (Historical and Beauty) Originally part of the fields and hedgerows associated with Oak Hill Farm, Thomas	LA designation: Hampstead Conservation	Response from Dawlin: We are a	Managed by Oak Hill Park's

	Clowser built 10 houses in the 1870s in what he called Oak Hill Park estate after	Area	private estate and	freehold
	building the new road running from Frognal to Oak Hill House and Oak Hill Lodge.	Hampstead Local Plan:	as such the gardens	
	Florence Nightingale was a frequent visitor to Oak Hill Park.	Biodiversity Corridors;	-	company
	The Oak Hill Park development was built in 1961-65 by Michael Lyell Associates, with	Veteran trees		Dawlin.
	landscaped grounds.	veterantices	enjoyment of the	
			residents of the	
	Richness of Wildlife:		Oak Hill Park.	
	The design of Oak Hill Park allowed for trees, extensive lawns, bedding and even			
	smallish pockets of woodland between the blocks of flats and houses. The topography			
	of the site means that there are some steep banks within Oak Hill Park which have been			
	allowed to retain wild vegetation and other important habitat. There are still a number			
	of veteran hedgerow oak trees remaining in Oak Hill Park. Three of these are marked as			
	individual significant trees on the 1866 OS map, one with a girth of well over 4 metres			
	though it has not been possible to obtain permission to measure this accurately, and			
	another five trees with veteran features that are marked on the 1866 OS map within			
	tree groups. These form an important link between other veteran trees in the			
	Hampstead and Redington Frognal wards and the many veteran trees on Hampstead			
	Heath and within Branch Hill SINC. At least one of these trees contains a wild bees nest,			
	an important resource for the area where wild bees are disappearing as in the rest of			
	the UK, but also due to pressure on spaces in hollow trees from the increasing local			
	population of non-native parakeets. The area is also immediately alongside the Branch			
	Hill SINC CaB102 which itself contains many varieties of birds, bats, trees and other			
	wildlife. Oak Hill Park is therefore an important habitat, in particular for the wildlife			
	associated with veteran trees and for tawny owls and bats.			
	Use by Local Community & Evidence for Particular Importance:			
	The roadway of Oak Hill Park is a private road for access to the residences in Oak Hill			
	Park. As such it is mainly of community use for the significant number of residents of			
	the area. Its particular importance is for the veteran trees on this site, for the wildlife			
	associated with them, and for their role as bridges to other veteran trees in the area,			
	including those on Hampstead Heath.			
3. South End		Special Policy Area:		The plan is for
Green and	Local Significance and Use by Local Community: On the northern side of the Borough	Grade 2 Borough SINC.		the current
Mansfield	level SINC 'Railsides' a significant part of this area is used as allotments.	Other LA designation:	Allotments	arrangements
Allotments	Richness of Wildlife: The Gospel Oak Railsides are varied and support a variety of		Association lease	to continue
		Area	the land from	into the future.
		Hampstead Local Plan:	Network Rail	
	are interspersed with areas of scrub, grassland and tall herbs. The habitats present are	Heath Fringes;		
	closely linked to railside management, with vegetation clearance setting back	Biodiversity Corridors		
	succession.			

	Apart from lineside management (vegetation clearance), these railsides provide a relatively undisturbed and continuous habitat. They are, thus a valuable habitat for invertebrates, birds, reptiles and mammals. The SEGMA allotments are in continuity with these wilder sections of the Gospel Oak Railsides and their management by plotholders and overseen by the SEGMA committee encourage organic gardening methods and protection of wildlife with retention of wildlife corridors along the allotment and plot boundary areas. Many plotholders also have gardens to the rear of Nassington Road which also encourage the use of this area by local wildlife from the Heath towards Biodiversity Corridors E and F, Local Green Spaces 'World Peace Garden' and 'Heath Hurst Gardens', and Open Spaces 'South End Green' and 'Keat's House Garden'. Use by Local Community & Evidence for Particular Importance: Camden has a very long waiting list for allotments and relatively few plots compared to neighbouring boroughs. This allotment area is leased from Railtrack, organised and run by local people, and provides 60 full-size allotments.			
4. World Peace Garden South Hill Park	Description of Space: Next door to Hampstead Heath Railway Station and above the northern platform, this was a neglected area of waste land on a steep slope down to the fence securing the platform. Beginning in 2004, and with the help of volunteers, including Heath Hands, this area was cleared and purchased by local traders Chhaganbhai Mistry and Trustee Jonathan Bergman together with local residents. Over the years inter-faith & other voluntary groups have donated their time & energy to transform this area into an unusual & inspiring World Peace Garden for the community.	Other LA designation: Hampstead Conservation Area Hampstead Local Plan: Heath Fringes, Biodiversity Corridors	'The World Peace Garden Camden', registered Charity number 1120264, lease the land from Network Rail. The current group Trustee Jonathan Bergman, civil engineer/designer Michael Wardle & garden designer Tony Panayiotou have stated they "are all fully behind the proposal to make this a Local Green Space."	The plan is for the current arrangements to continue into the future.

	this area Oriel Place garden was set aside with seating, flower beds and later (about 80 years ago) the planting of a London plane tree for shade and greenery with a cast iron bench placed around its trunk.			
6. Hampstead Green	the southern boundary of St Stephen's church site and a footpath running from Roland Hill Street towards the entrance to the Royal Free Hospital's pedestrian and vehicle entrance on Pond Street. Local Significance: (Historical and Beauty) Hampstead Green is the remains of what was once a much larger area of manorial waste. It was neglected for many years and became overgrown until the local community cleared the area and transformed it into a natural open space. The railed triangular site is now laid to grass with around nine trees, species including cherry, red oak, sycamore and poplar. The area is owned by the LB Camden and is managed for	Special Policy Area: Local SINC CaL17. Other LA designation: Hampstead Conservation Area. Public Open Space number 49 in the LB Camden Unitary Development Plans Schedule of Open Spaces. Occasionally open to the public, it is locked but visible.	The land is owned by Camden, but subject to a covenant that restricts its use to "an enclosed open space". This site was included in the 1st consultation draft of the Hampstead Local Plan. The allocation received no comments from Camden.	Managed by Parks & Open Spaces
7. Keats House and Garden	consist of lawns, paths, hedges, large flower beds and mature trees. Local Significance: (Historical and Beauty) The house was built on land enclosed from Hampstead Heath between 1814-6 as a pair of semi-detached houses sharing a common garden. There were stables to the south- west and a kitchen garden to the north-west of the house; the stables were later converted to house a collection relating to Keats and to a branch library now run by local people. What was the kitchen garden became the approach path to the library. John Keats (1795- 1821) lived here for 17 months from 1818-1820, and from April 1819 his next door neighbour was Mrs Brawne and her three children. Keats and the eldest daughter Fanny met and fell in love. The garden in Keats' day was a woodland garden; Keats referred to a 'grass plot' in front of the windows. An ancient plum tree that stood near the front of the house has been replaced and a plaque beneath it relates how the 'Ode to a Nightingale' was written there. In 1920-21 the house was threatened with destruction, but was saved by money raised	Special Policy Area: Area of Special Character: Hampstead & Highgate Ridge Other LA designation: Private Open Space (Small Local) number 217 in the LB Camden Unitary Development Plans Schedule of Open Spaces. English Heritage Grade I listing [not the garden, though this importantly forms the setting of the Grade I listed house] Hampstead Local Plan: Heath Fringes, Biodiversity Corridors	Owned and managed by City of London Corporation ***	Garden maintained with year-round weekly assistance of a volunteer group from <i>Heath</i> <i>Hands</i>

	maintained in perpetuity in Keats' memory. It was opened to the public 25 May 1925.			
	In 1974-5 LB Camden restored the house with funding from the Historic Buildings			
	Council. The garden was replanted in the late 1970s, included flowering shrubs within a			
	north fenced boundary, with mature trees retained including plane and lime, and ash,			
	beech, sycamore trees planted along the south boundary. In 1998 City of London took			
	over responsibility for the house, which was managed by London Metropolitan Archives.			
	Although formerly on the EH Register of Parks and Gardens of Special Historic Interest,			
	Keats' House was removed in 2003.			
	In 2007, Keats House was awarded a HLF grant to undertake substantial restoration			
	and it re-opened in 2009. In tandem with the refurbishment of the house, the garden			
	was also redesigned. A new hedge was planted around the border of the garden in			
	October 2008 and new fruit trees, plants and shrubs, all in keeping with the Regency			
	period, have been put in place. Each border of the garden reflects an aspect of Keats's			
	poetry: Melancholy, Autumn and Nightingale.			
	Use by Local Community: The garden is open to the public Wed-Sat and Bank Holiday			
	Mondays 11am to 5pm. Entry is free and picnics encouraged. Keats' House Gardens			
	take part each year in Open Garden Squares weekend.			
8. Holly Bush Hi	II Description of Space : 'Holly Bush Hill' is the area of planting bounded by the roads Holly	-	London Donodon	It is expected
	Hill and Mount Vernon and the tarmac footpath going up to the top of Mount Vernon.	Local Space number	or camach	that LB Camden
	It is a raised-up bank due to the steepness of the hill here with a wall and drop on the west side of the road Holly Hill.	60 in the LB Camden Unitary Development		ownership will continue, with
	Local Significance: (Historical and use by local community)	Plans		the Holly Hill
	In c.1900 Holly Hill was under threat for road widening in connection with railway works			volunteers
	but opposition from local people prevented this, meaning that the green bank 'Holly Hill'			continuing to
	was retained for locals to continue to appreciate. Since the late 19th century			maintain it.
	/ early 20th century it has been maintained by Hampstead Borough Council as an area			
	of regularly mown grass. This was continued by LB Camden Parks & Open Spaces			
	Department, but it eventually turned to scrub.			
	The original desire of the local community to protect and improve this area is			
	continuing. The Holly Hill Conservation Volunteers were formed in October 2013,			
	signing an agreement with Camden in September 2014 for permission to access Holly Hill site to enhance it. This included clearing the inv. brambles and service and service			
	Hill site to enhance it. This included clearing the ivy, brambles and scrub and sowing, growing and maintaining this area for plants, flowers, fruits, grasses, herbs and shrubs.			
	growing and maintaining this area for plants, howers, huits, grasses, herbs and shifubs.			
	The group is a member of The Conservation Volunteers and has around 20 members, of			
1	which about half regularly help with gardening on the site. The annual membership fee	1		

	 goes towards the cost of insurance and plants; plant donations are also received. Access is otherwise not safe for members of the public. Richness of Wildlife An area within the site is retained for wild flowers and by using organic methods, insects and birds can visit without harm. The site is very popular with bats who swoop around the area on warm evenings. The volunteers have put up a bat box on the Holly Hill bank and have a bat detector. This demonstrates the regular seasonal presence of bats and is useful for introducing children to the fascination of our local bats. Beauty and Tranquility While it is on a moderately busy thoroughfare it nevertheless provides visual beauty through its interplanting of a variety of trees, shrubs, bulbs, garden flowers and wild flowers. It has become a local amenity in the sense that people often stop to admire the view/flowers and children enjoy learning the names of the plants as they come into bloom. The planting is of native varieties e.g. evening primrose, foxgloves, damson and sage. Snowdrops, primroses and daffodils provide beautiful early cover until the (pre-existing) bluebells come out. 			
9. Fenton House	Description of Space : The layout today is not dissimilar to that of the 1860s with a lawn to the south with central gravel path leading from the entrance gates to what was then the main	English Heritage Grade 1 listing [not Garden] Hampstead Local Plan: Biodiversity corridors	National Trust have been approached via Andrew Darragh	of <i>Fenton</i>
